\* Non-standard size - subject to special conditions.

Metallic balloons are slightly smaller due to their latex composition.

The D11 and B105 balloons are the same size, but the D11 has a longer neck and a rounder shape than the B105.

The specifications of Belbal balloons are measured in lab conditions and can differ as environmental conditions change.

Balloon colours in this document reflect the true colours of inflated balloons as close as possible.

Real balloon colours may differ.

## Intertek Tick Mark

We believe our balloons must live up to your highest expectations. Our primary concern is ensuring our balloons are safe. The Intertek Tick Mark is proof that our balloons have been independently tested and meet required standards.

## ISO 9001:2015 certified

We have implemented a quality management system complying with the ISO9001:2015 standard. The quality management system covers all company processes and activities and has been externally audited by TÜV Nord, a global leader in testing, inspection and certification.

## Proud to be a

## Sedex membership

As member of SEDEX (Supplier Ethical Data Exchange), Belbal maintains a responsible, ethical approach to all aspects of its business throughout the entire value chain. To maintain our SEDEX membership, Belbal conducts SMETA audits.

## 100% Natural rubber latex

Belbal's latex balloons are made of natural rubber latex. EBPC laboratory tests have shown balloons to biodegrade to approximately 90% within 2 years. Therefore, latex balloons as a product group can be classed as biodegradable. Latex balloons biodegrade at about the same rate as other natural material, such as oak leaves and wood fibres. Different balloons will have varying rates of biodegradability though, dependent on the process and the desired qualities of the product. Balloons are manufactured using only natural materials, all of which can be found in their natural state in the environment.

Technically speaking, latex balloons are "natural elastomers" (as opposed to synthetic plastic) and will fully disintegrate. However, like a banana peel, once it is used a balloon is litter. Therefore, it should be disposed of properly in a bin.

EUROPEAN BALLOON & PARTY COUNCIL

## EBPC - European Balloon & Party Council

We at Belbal, as a balloon producer and member of the EBPC (European Balloon & Party Council), follow the EBPC Code of best practice and its mission statement to educate and promote the fun use of balloons and party products safely, ethically and in respect of the environment. We do not support balloon releases in a bid to protect the environment from unnecessary litter.

## Easy to handle, store and transport

Belbal standard shipping boxes are designed to optimally fit EU 80 x 120 cm pallets, ensuring ease of handling throughout the logistics process. They are crafted from corrugated cardboard with a highly resistant structure, making them ideal for parcel shipments.

## CUSTOM PRINTED BALLOONS

## CUSTOM PRINTED BALLOONS

Your balloon printing starts at Belbal

Printed balloons are one of the most effective and colourful ways for campaigning and advertising. They are made of 100% natural rubber latex and with the shift in consumer towards sustainable alternatives, they present one of the most sustainable promotional products on the market. Your company signs, brand messages, product names, logos or images, printed on Belbal balloons are one of the most positive ways to promote your brand.

Your balloon printing starts at Belbal, either directly or through one of our partners.

Our distribution partners around the world get access to the full Belbal-package: our technology, our printing machinery, our quality products and our continuous technical and commercial support.

When it comes to quality, product availability, printing capacities and supply chain, the Belbal printer network is second to none.

# PRINT SPECIFICATIONS

## Artwork

To reproduce your artwork at the highest quality, your artwork should be provided as a vectorized AI, PDF, EPS or CDR file. If Pantone colour values are not included in your artwork, they should be provided in an email together with the artwork.

## Neck position

Neck down - used for helium filled balloons or air filled placed on balloon holders.

Neck up - used for balloons filled with air and hung.

## Registration

When printing a design that has more than one colour, we can give no guarantee for 100% registration. As balloons are inflated during printing, position of colours on printed balloon can move up to 3mm.

## Halftones

Halftone is the reprographic technique that simulates continuous-tone imagery through the use of dots, varying either in size or in spacing, thus generating a gradient-like effect.

## Underprint

Underprinting with white ink is used to allow halftone printed colours to appear as desired, especially when printing on darker balloons.

## Disclaimer

Belbal declines all responsibility for copyright and other reproduction rights which may be held by third parties. The customer accepts full legal liability and will hold harmless Belbal for the content of materials processed and printed on your behalf and under your instruction. Orders with offensive, indecent and improper material will be refused. Any material which in our opinion may be of an illegal nature will not be printed. We reserve the right to refuse an order, at our discretion and without giving a reason.
